

PROCREEA Fertilité

PRICES LIST

FERTILITY TREATMENT - IN VITRO FERTILIZATION

**embryo freezing costs not included*

	PRICE
*Conventional IVF with fresh embryo transfer	9 240,00 \$
*IVF with ICSI and fresh embryo transfer	11 055,00 \$
Embryo freezing -including the 1st year of storage	1 375,00 \$
Micro-injection (ICSI)	1 815,00 \$
Complement to microinjection - ZYMOT	330,00 \$
Frozen embryo transfer cycle	2 915,00 \$
Frozen embryo transfer cycle on natural cycle - without ultrasound	2 590,00 \$
Anonymous embryo donation	4 290,00 \$
Directed embryo donation	3 495,00 \$
Percutaneous epididymal sperm aspiration - PESA	3 245,00 \$
Sperm microscopy extraction - Micro TESE	4 400,00 \$
PESA / Micro-TESE covered RAMQ, sperm freezing costs not covered	415,00 \$

FERTILITY TREATMENT - ARTIFICIAL INSEMINATION

Ultrasound monitoring ovarian stimulation with gonadotropins	550,00 \$
Ultrasound follow-up ovarian stimulation by oral agent	330,00 \$
Ultrasound without ovarian stimulation - each	250.00\$ each
Intrauterine insemination	580,00 \$
Administrative fees for receiving, exporting or allocating frozen semen	95,00 \$
<i>Donor sperm straw - Not available at Procreea Fertility</i>	

CRYOPRÉSERVATION

**embryo freezing costs not included*

***embryo freezing and administrative costs not included*

Cryopreservation of eggs personal reason	8 360,00 \$
Cryopreservation of eggs for medical reason	RAMQ
*Egg thawing cycle - following a CRYO - transfer included	6 270,00 \$
Thawing cycle of eggs from outside - transfer included	7 370,00 \$
Medical Record Fee - Guaranteed Baby Program	250,00 \$
Sperm freezing personal reason	415,00 \$
Sperm freezing medical reason	RAMQ
Renewal storage fees Embryos / Eggs / Sperm	400,00 \$
Fixed rate renewable annually - no reimbursement possible	
Administrative fees - receipt/export of embryos or ova	140,00 \$

LABORATORY SERVICES

Quantitative pregnancy test	95,00 \$
Hormonal dosage (Estradiol-Progesterone)	95,00 \$
Spermogram	235,00 \$
Semen DNA fragmentation test (semen analysis and preparation)	360,00 \$
Semen freezing test	140,00 \$
Cost of transporting biological sample(s) - other than blood - to the hospital	5,00\$ + tx
Cost of transporting biological sample(s) - with blood - to the hospital	15,00\$ + tx
Handling fees and other	275,00 \$
Liquid nitrogen handling fees	55,00 \$

ULTRASOUND SERVICES

Viability ultrasound	250,00 \$
Diagnostic ultrasound - ovarian reserve - control of cyst(s)	250,00 \$
Hysterosonography - tubal permeability	460,00 \$

ENDOMETRIAL EVALUATION

Simulated cycle - MOCK	660,00 \$
3D ultrasound - uterine cavity	250,00 \$
Embryo transfer test	180,00 \$
ERA - Endometrial Susceptibility Analysis	2 203,48 \$
EMMA - Metagenomic Analysis of the Endometrial Microbiome	658,48 \$
EMMA - Metagenomic Analysis of the Endometrial Microbiome	1 078,48 \$
ENDOM3 - ERA-ALICE-EMMA Combined Analysis	3 033,48 \$

CONSULTATIONS

Medical consultation - Excluding RAMQ	On request
Consultation Social worker - psychologist - External ref. According to professional	According to the professional
Genetic counseling - External Ref. - GENOLIFE	According to the professional

ADMINISTRATIVE COSTS

File copy fees	On request
Fees for insurance form	On request
Administrative fees for completing medical documents	On request
Secretary fee for letter	40,00\$ + tx

<u>PREIMPLANTATION GENETIC DIAGNOSIS (PD)</u>	
Evaluation for embryo biopsy	990,00 \$
<i>PGT-A Determine whether the embryo has chromosomal abnormalities or not</i>	
Biopsy, transport and genetic analysis PGT-A 1st blastocyst	2 290,00 \$
Biopsy, transport and genetic analysis PGT-A for blastocysts 2 to 6	325,00\$ each
Biopsy, transport and genetic analysis PGT-A for blastocysts 7 and more	300,00\$ each
<i>PGT-SR Determine if the embryo carries the chromosome structure abnormality one of the 2 parents</i>	
Biopsy, transport and genetic analysis PGT-SR 1st blastocyst	2 475,00 \$
Biopsy, transport and genetic analysis PGT-SR blastocysts2 to 6	515,00\$ each
Biopsy, transport and genetic analysis PGT-SR blastocysts 7 and more	475,00\$ each
<i>PGT-M - Determining whether the embryo is a carrier of the disease present in genetics parent(s)</i>	
Probe development for the PGT-M	1 790,00 \$
Biopsy, transport and genetic analysis PGT-M 1st blastocyst	7 265,00 \$
Biopsy, transport and genetic analysis PGT-M 2 blastocysts and more	46,00\$ each
<i>PGT-M - and PGT-A combined</i>	
Probe development for the PGT-M	1 790,00 \$
Biopsy, transport and genetic analysis PGT-A 1st blastocyst	2 290,00 \$
PGT-A biopsy, transport and genetic analysis for blastocysts 2 to 6	325,00\$ each
PGT-A biopsy, transport and genetic analysis for blastocysts 7 and above	300,00\$ each
PGT-M genetic analysis following PGT-A	5 255,00 \$
<i>Rebiopsy and genetic analysis</i>	
Rebiopsy, and genetic analysis of a blastocyst	570,00 \$
Rebiopsy, and genetic analysis on each additional blastocyst	165,00 \$
<i>Products of conception</i>	
Chromosomal analysis of the product of conception	900,00 \$
<u>OTHER FEES OR SERVICES</u>	
Anesthesia fees	110,00 \$
Nursing costs for IVF	275,00 \$
